B.1 PRICING.

The contractor shall perform the Army Desktop and Mobile Computing - 2 (ADMC-2) effort in accordance with the scope as described in Part D, Statement of Work and provide all of the items identified in Part B of the Schedule over the life of the contract, which includes Contract Line Item Numbers (CLINs) for "Catalog Items," "Non-Catalog Items," "Unpriced Items," and "Reimbursable Items."

(a) Catalog Items (CLINs 1001-1008; 2001-2008, 3001-3008, 4001-4008 and 5001-5008). The contractor shall provide all of the items in the CLIN Description for each of the catalog equipment categories identified for each module awarded. The items shall be provided from a catalog, as defined in Federal Acquisition Regulation 2.101 under subsection (6)(i) of the "commercial item" definition. Contract type is Fixed Price, with Economic Price Adjustment (EPA).

(1) Catalogs established expressly for this contract are not acceptable.

(2) Use of a GSA Schedule as a catalog for this purpose is permissible.

(3) For each of the catalog equipment categories, the contractor shall identify a catalog, catalogs, or portions of a catalog, from which it will provide the items. The contractor shall identify the catalog for each equipment category by unique name/publication number or similar unique identifier. The contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(4) Copies of the catalogs, including catalog changes, shall be made available electronically to the Government to establish the price baseline for the application of contractual discounts for existing items and catalog additions, and to facilitate adjustments under the Economic Price Adjustment-Standard Supplies clause of this contract. An archive of the catalogs and any catalog changes thereto shall be maintained on the Army Small Computer Program website.

(5) Items provided from a catalog shall be compliant with the terms and conditions of the ADMC-2 contract; the contractor shall provide items that are compliant with Federal laws and regulations.

(6) The contractor shall establish and maintain a web-based ordering mechanism for items provided under this contract that will include a description of the items available through the catalogs.

(7) Catalog items will be purchased by delivery order. The catalog CLIN on the delivery order shall list the "1 lot" discounted amount for the catalog items ordered; in the description column, the following minimum information will be listed: catalog number, part number, description, item quantity, unit price and extended amount, discount applied, and the discounted grand total (which should equate to the "1 lot" amount).

(8) Catalog Ordering Constraints. The contractor is responsible for assuring that items furnished under the contract from the specified catalogs are within the scope of the catalog equipment category descriptions as set forth in Part B of the contract, comply with the terms and conditions of the contract, and comply with Federal laws and regulations (e.g., TAA). Non-compliant and out-of-scope items shall be otherwise eliminated from the catalogs for ordering purposes and shall not be purchasable under the contract. After award, the contractor shall identify in its ordering mechanism, or guide, the items from each catalog that are available for ordering under each of the catalog equipment categories. The Government reserves the right to have noncompliant items eliminated from ordering. Additionally, in the event that the contractor provides items from catalogs that exceed the scope established by the catalog equipment category descriptions, the Government reserves the right to suspend ordering under the contract. The right of suspension is in addition to and not in substitution of any other rights of the Government under the contract.

(b) Discounts. A single discount percentage shall be identified for each of the ADMC-2 equipment categories. The discount percentage shall be fixed for the life of the contract.

(1) Items shall be provided from the catalog at a price that reflects the discount for the equipment category applied to the catalog price, or a lesser price.

(2) Pricing for catalog items, as discounted, shall not exceed the lowest available GSA Federal Supply Schedule price of the catalog holder.

(3) The discount for the catalog equipment category shall apply to items provided from the catalog and any replacement or revision to the catalog to include logical derivatives and descendants.

(4) The catalog discount shall apply for the entire period of the contract, including optional periods.

(5) The price of the catalog items to which the discount is applied is subject to adjustment in accordance with the Economic Price Adjustment-Standard Supplies clause of this contract.

(c) Non-Catalog Items (CLINS 1700, 2700, 3700, 4700 and 5700). CLINs in this series are for non-catalog items added to the contract under the technology refreshment clause, Part C.2 paragraph s. Enter a Unit Price for each CLIN/SLIN. Enter the OEM, Model, Manufacturer and Product Number. Contract type is Fixed Price with Economic Price Adjustment (EPA).

(1) Although these Non-Catalog Item CLINs are for ordering items at fixed prices, the prices are subject to adjustment under the Economic Price Adjustment-Standards Supplies clause of the contract. In order to facilitate price adjustments under the clause, certain catalog information shall be identified and provided. For each of CLIN items, the contractor shall identify a catalog on which the item is listed. The contractor shall identify the catalog for each of the CLIN items by unique name/publication number or similar unique identifier. The contractor shall likewise identify all subsequent publications of that catalog (descendants or logical derivatives).

(2) A copy of the catalogs, including catalog changes, shall be made available electronically to the Government to facilitate adjustments under the Economic Price Adjustment-Standard Supplies clause of this contract. An archive of the catalogs and any catalog changes thereto shall be maintained on the ASCP website.

(d) Unpriced Items (CLINs 1100-1500, 2100-2500, 3100-3500, 4100-4500 and 5100-5500). CLINs in this series are for Unpriced Items. Ordering contracting officers must establish prices for orders of these items using the policies and methods of FAR 15.4.

(1) Within-Scope Items (CLINs 1100, 2100, 3100, 4100 and 5100). The contractor shall provide Within-Scope items under this contract on a firm-fixed price basis. Price is TBD. Within-Scope Items CLINs are provided for the ordering of items not covered by other contract CLINs that are within the scope of the contract for ADMC-2 as indicated in Part D of the contract; these CLINs include items needed to complete an order for ADMC-2 items in order to be fully responsive to the particular needs of a user. Items shall otherwise comply with the provisions of the contract.

(2) Related Services (CLINs 1500, 2500, 3500, 4500 and 5500). The contractor shall provide services related to equipment acquired under this contract on a firm-fixed price basis under Sub CLINs (SLINs) 1500AA, 2500AA, 3500AA, 4500AA and 5500AA. Price is TBD. Related services includes installation, extended equipment warranty, site survey, system configuration and integration, image blasting, custom imaging, data migration, asset tagging, and asset tracking. Other direct costs for items used in providing the services, including travel, shall be priced on a firm fixed price basis under SLINs 1500AB, 2500AB, 3500AB, 4500AB and 5500AB. Accounting for Contractor Services reporting shall be provided, and shall be priced on a firm fixed price basis or provided as not separately priced under SLINs 1500AC, 2500AC, 3500AC, 4500AC and 5500AC.

(3) Reimbursable Items Enterprise Software Agreement (ESA) Software (CLINs 1600, 2600, 3600, 4600 and 5600). The contractor shall be reimbursed on a cost reimbursable basis for any software acquired under an ESA. Cost is TBD. Contractor costs for ESA software shall be reimbursed at the prices charged, with no markup percentage for loadings, fee or profit.

(c) If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1) Reserved.

(2) The increased contract unit price shall be effective --

a. On the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter; or

b. If the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

In accordance with FAR 12.302, Tailoring of Provisions and Clauses for the Acquisition of Commercial Items, FAR Clause 52.212-4 is tailored as follows to reflect special contract terms and conditions that are unique for this contract. This tailored clause supersedes the version of FAR Clause 52.212-4.

(a) Inspection/Acceptance. Supplies or services delivered under this contract shall be inspected and accepted by the Contracting Officer's Representative (COR) or a representative designated in the individual orders. The contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or re-performance of nonconforming services at no increase in contract price. Additional inspection and acceptance requirements may be specified in individual orders. The Government must exercise its post-acceptance rights --

1. Within a reasonable time after the defect was discovered or should have been discovered; and
2. Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) Assignment. The contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C.3727). (c) Changes.

1. The Government reserves the right to issue unilateral modifications to effect administrative changes to orders. Further, the Procuring Contracting Officer (PCO) may issue unilateral modifications to effect administrative changes to the contract. If the Government issues a Request for Proposal (RFP) for a technology change or any other type of change to the contract, the contractor shall submit a proposal within 30 calendar days of RFP date, unless the RFP specifies a later RFP due date. Regardless of which party initiates a proposed contract change, should the Government request supplemental information to analyze the contractor's proposal, the contractor shall provide the additional information within 7 calendar days of the request, unless the Government's request specifies a later due date.

(d) Disputes. This contract is subject to the Contract Disputes Act of 1978, as amended (41 U.S.C.601-613). Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause at FAR 52.233-1, Disputes, which is incorporated herein by reference. The contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(e) Definitions. The clause at FAR 52.202-1, Definitions, is incorporated herein by reference.

The contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) Title. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) Warranty. The contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract (Parts C.2 and D.1).

(p) Limitation of liability. Except as otherwise provided by an express warranty, the contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(k) Contract Authority

1. Contracting Officer's Authority. The Contracting Officer is the only person authorized to direct changes in any of the requirements under this contract, and, notwithstanding any provisions contained elsewhere in this contract, said authority remains solely in the Contracting Officer. In the event the contractor effects any such change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and solely at the risk of the contractor.

2. Ordering Contracting Officers within the Army, Department of Defense, and other Federal agencies are authorized to place orders within the terms of this contract and within the extent of their authority. They are not authorized to make changes to the contract terms. The Ordering Contracting Officers' authority is limited to the individual orders.

3. Contractor's Authority.

a. The contractor shall not accept any instructions issued by any person employed by the U.S. Government or otherwise, other than the Contracting Officer, or the Contracting Officer's Representative (COR) acting within the limits of his or her authority.

b. The contractor shall not in any way represent that he is a part of the U. S. Government or that he has the authority to contract or procure supplies for the account of the United States of America.

(l) Contract Administration. Notwithstanding the contractor's responsibility for total management during the performance of this contract, the administration of the contract requires maximum coordination between the Government and the contractor. The following individuals will be the Government points of contact during the performance of the contract:

1. Contracting Officer (KO). All contract administration will be effected by the Contracting Officer. Communications pertaining to contractual administrative matters shall be addressed to the KO. No changes in or deviation from the terms and conditions shall be effected without a written modification to the contract executed by the KO authorizing such changes.

2. Contracting Officer's Representative. The Contracting Officer shall designate a contract level Contracting Officer's Representatives (CORs) during the term of this contract in accordance with Part C.2, DFARS clause 252.201-7000 "Contracting Officer's Representative". 3. Order Contracting Officer's Representative. The Ordering Contracting Officer may designate individuals to act as Order Contracting Officer's Representative (COR) under any resultant delivery order. Order CORs may provide technical guidance in direction of the work, but they will not be authorized to change any of the terms and conditions of the contract or order. Order CORs will be designated by a letter of appointment from the Ordering Contracting Officer.

(m) Government-wide Purchase Card. The following describes the procedures to be used for ordering items under this contract by using the Federal Government-wide purchase card. This option to order by use of the Government-wide purchase card is strictly an alternative method of ordering by the Government and may be used in place of ordering by other order forms that comply with FAR 12.204. The Government reserves the right to unilaterally terminate the use of the credit card at any time.

1. All ordering offices may use the Government-wide purchase card, commonly referred to as the Government "credit card," as an alternative method of ordering and paying for purchases made under this contract. Purchase card orders are subject to all terms and conditions of this contract, unless otherwise stated in this provision or another provision in this contract.

2. The purchase card is specifically designed for use by the Federal Government. The purchase card is like a typical commercial credit card. However, the authorization limitations of the purchase card are more specific, i.e., only for a particular contract, monthly limitations, certain categories of products or services, etc. The purchase card will be exclusively used for official Government purchases in accordance with the prices, terms, and conditions of this contract. The purchase card order limitation shall be the micro-purchase threshold in-effect in the Federal Acquisition Regulation (FAR), Part 13, on the date the order is placed by an authorized cardholder. With respect to ordering authority, any authorized user of this contract who is an appointed, recognized Government-wide Purchase Card holder may use the purchase card as a means of purchasing items on this contract. For purchase card orders only, this waives the requirement for use of other forms that comply with FAR 12.204. All appointed, recognized Government-wide Purchase Card holders are subject to and responsible for complying with all the rules, regulations, and limits that come with his/her purchase card.
